

TRAVELS DURING COVID-19

Since Brzezinka is in an isolated location, if you are required to quarantine you can do so in the workshop, therefore we would help you to maintain 10 days stay in Brzezinka including the workshop days. There is no need to arrive early and serve your 10 day quarantine before the start of the work. Moreover, if you are vaccinated, there is no quarantine requirement when entering to Poland. You should check the government guidelines that apply to you with regards to travels.
